SUMMARY

Results-driven **Data Analyst** with 3 years of experience in **data governance, data quality management, and issue remediation**. Proficient in data profiling, data mapping, root cause and impact analysis, and metadata management, with hands-on experience across **Python, SQL, Excel, Power BI, Looker Studio, and Tableau**. Skilled in developing automated reports and dashboards using BI tools, performing exploratory data analysis, and utilizing machine learning algorithms for predictive analytics. Adept at leading cross-functional teams, conducting requirement analysis, and implementing solutions to optimize business processes.

WORK EXPERIENCE

Inventory Service Analyst

Softenger India Pvt Ltd (Deputed at Kyndryl Solutions) [Jun '25 - Present]

Pune, Maharashtra, IN

- **Managed and governed** the **AIOps Inventory Service platform** for Vodafone Idea, ensuring inventory accuracy, lifecycle compliance, and **data integrity across enterprise systems**.
- **Executed quarterly multi-source inventory reconciliation and gap analysis** across Asset Register, Ansible, Antivirus, SolarWinds, and ITM data sources **to identify and resolve critical discrepancies**.
- **Conducted data validation, cleansing, and transformation** using Excel and **Python** (Pandas) **to improve inventory data quality** and reporting efficiency.
- **Developed Power BI and Microsoft Excel dashboards** to monitor inventory KPIs, NCIs, compliance status, and operational discrepancies for governance reporting.
- Managed **onboarding and decommissioning activities within the Inventory Services platform** while ensuring **governance compliance and data consistency**.
- **Performed data profiling and root cause/impact analysis** to support issue remediation and audit evidence preparation, partnering with business and technology stakeholders to document findings.
- Maintained and **updated business and technical metadata for inventory and asset systems** to **support data governance** and control requirements.
- Coordinated with **cross-functional teams for SLA-driven remediation of inventory issues**, audit observations, and operational data gaps.
- Led time-sensitive inventory analysis and reconciliation activities during **corporate audit assessments** by validating **large-scale data across multiple infrastructure and security platforms**, supporting audit discussions, live **testing**, discrepancy tracking, and **RCA/CAPA action planning**.
- **Worked in a high-pressure, fast-paced enterprise environment**, proactively driving inventory governance, audit support, and **issue resolution across multiple operational teams**.

Data Analyst

ERP Launchpad [Sep '23 - Jun '25]

Pune, Maharashtra, IN

- **Led 5+ end-to-end data analytics projects**, collaborating with stakeholders and business analysts to translate business needs into actionable insights.
- **Developed 15+ automated dashboards** in **Power BI, Looker Studio, and Google Sheets**, increasing **real-time visibility and operational decision-making by 40%**.
- **Automated reporting processes and data flows** using **Google Workspace, and Google Apps Script**, reducing manual effort by **70%** and improving data consistency and integrity.
- Worked with **Google BigQuery** for querying large datasets and optimizing data pipelines for faster reporting and dashboard performance.
- **Automated ETL workflows** that streamline **data extraction, transformation, and integration** across multiple business functions.
- Conducted advanced **EDA (Exploratory Data Analysis)** to uncover trends, patterns, and key performance indicators (KPIs), leading to a **25% improvement in operational forecasting**.
- **Designed and implemented ERP modules** to streamline finance, HR, and **inventory processes**, reducing delays and enhancing **operational efficiency by 50%**.
- **Created centralized real-time dashboards**, improving reporting turnaround time from **24 hours to 2 hours** and enabling faster business reviews.
- **Spearheaded cross-functional collaboration** between SMEs, engineering, and leadership teams, ensuring smooth execution of projects.
- Developed dashboards to **track key metrics, customer behavior and performance indicators** related to delivery timelines, process delays, and real-time exception handling, **improving reporting accuracy by 40%**.
- **Thrived in a fast-paced startup environment**, proactively **managing multiple priorities**, driving **end-to-end ownership**, and **delivering analytical solutions** under tight timelines.

KEY SKILLS

• Business Analysis • Data Analytics Tools • Business Intelligence • Hypothesis Testing • Statistical Methods • Data Storytelling • Data Handling • Web Scrapping • Data Extraction • Data Structure • Identify Trends • Data Warehouse • Data Visualization Techniques • Data Mapping • Word • Data Collection • Data Remediation • Data Control • Root Cause & Impact Analysis • Performance Tracking • Regulatory Reporting Support • Big Data • Analyze Data • Process Automation • Product Analytics • Write SQL Queries • Data Issues • Problems Solving • Complex Data Set • Data Governance • Metadata Management • Power Query • Research • MIS Reporting • Business Insights • Pivot Table • Analytical Thinking

TECHNICAL SKILLS

Data Analytics : Data Pre-Processing, Data Cleansing, Data Modelling, Predictive Analysis
Languages : Python (NumPy, Pandas, Matplotlib, Plotly, Scipy, Scikit-learn)
Database and SQL : MySQL, Query Optimization, Data Extraction
Cloud : Google Cloud Platform, Google BigQuery
BI Tools : Microsoft Advance Excel, Google Sheets, Microsoft PowerBI, Tableau, Looker Studio/Google Data Studio
Automation & Scripting : Google Apps Script, AppSheet
ETL & Data Processing : Data Pipelines, API Integrations
Stakeholder Communication & Documentation : BRD, FRD, Process/Mind Mapping.
Business & Operational Insights : Office, Forecasting, KPI Tracking, Business Reporting

EDUCATION

Masters of Science in Data Science
Liverpool John Moores University [Oct '23]

Bachelor of Engineering in Computer Engineering
Savitribai Phule Pune University [Jul '19]

KEY PROJECTS

1. **Vodafone Idea Limited** | June'26 - Present | *Kyndryl*
- **Managed enterprise inventory governance and reconciliation activities across Inventory Services**, Asset Register, and multiple infrastructure / security platforms **to ensure data accuracy and compliance alignment**.
 - Maintained and **validated metadata** (asset classification, ownership, lifecycle status, compliance flags) **across Asset Register** and infrastructure platforms **to support governance and reconciliation accuracy**.
 - **Led time-sensitive inventory analysis and large-scale reconciliation activities** during corporate audit assessments, supporting audit validation, live testing, discrepancy resolution, and **RCA/CAPA** action planning.
 - Performed **cross-platform inventory validation** between Inventory Services and enterprise tools including ARCON, FireEye, Monitoring, VMware, VA Scan, Malware, and Backup platforms **to identify compliance and inventory gaps**.
 - **Automated inventory and asset reconciliation workflows using Python**, **reducing manual reporting turnaround time** from approximately **2 hours to 10 minutes**.
 - Supported onboarding/decommissioning activities, **RFC validation**, and **post-deployment inventory consistency checks** within the Inventory Services platform.
 - **Collaborated with auditors, infrastructure teams, and stakeholders to prepare audit evidence, track observations**, and support corrective/preventive action planning for identified discrepancies.
- **Impact :-** Improved inventory governance visibility, accelerated audit response timelines, enhanced reconciliation accuracy, and reduced manual operational effort through automation and centralized reporting.
2. **ERP System for – Manufacturing Company** | Nov'24 – Jun25 | *ERP Launchpad*
- **Designed & deployed a full-scale ERP system**, integrating **data automation, workflow optimization, and role-based access controls** to improve procurement, production, and inventory management.
 - **Built automated reporting pipelines** using **Google Apps Script (similar to Python scripting for automation) & AppSheet (low-code ERP platform)**, **reducing manual effort by 70%**.
 - **Developed advanced business intelligence dashboards** (Looker Studio, Google Sheets) for real-time tracking of **supply chain KPIs & BOM-based manufacturing**.
 - **Integrated API-based document processing to automate PDF merging, compliance reports**, and approval workflows.
 - **Implemented AI-driven decision support tools** (Google AI/ML APIs) to enhance **demand forecasting & inventory optimization**.
- **Impact :-** Enabled **data-driven decision-making**, automated 70% of repetitive tasks, and enhanced ERP adoption across business units.
3. **ERP System for – Solar Manufacturing Company** | Apr'24 – Nov'24 | *ERP Launchpad*
- **Designed & scaled an ERP solution**, integrating **real-time procurement tracking, financial reporting, and inventory control**.
 - **Developed interactive dashboards** (Looker Studio, Google Sheets) to visualize **raw material procurement, cost analysis, and project milestones**.
 - **Automated process workflows using Google Apps Script** (equivalent to **Python scripting** in enterprise automation), **reducing errors in financial & inventory calculations by 60%**.
 - **Integrated role-based access control for data security & compliance, ensuring multi-level approval** workflows.
 - **Automated procurement and financial workflows by configuring API integrations for real-time vendor management, PO approvals**, and financial tracking, **reducing processing time by 60%**.
- **Impact :-** Increased operational efficiency by **60%**, eliminated redundant workflows, and improved procurement forecasting.

CERTIFICATIONS

- **Post Graduate Diploma in Data Science** from **IIIT Bangalore** with specialization in **Business Analytics**. ([Link](#))
- **SSC NASSCOM Certification - Post Graduate Diploma in Data Science** with **IIITB** and **upGrad**. ([Link](#))
- **Power BI in Data Analytics Intern – PwC Switzerland (Internship)** ([Certificate](#))
- **Data Science & Business Analytics Intern – The Sparks Foundation (Internship)**
